Re: Notice of File Closure, State Lease ML 7920, S/047/055, Uintah County, Utah

Dear Mr. Young:

This letter is to notify you that the file, S/047/055, for the State Lease ML 7920 project, located in Uintah County, Utah, will be retired from our files.

The Division inspected the project area on May 15, 1997 (memo enclosed) and found the surface reclamation was satisfactory but the seeding lacked the three year maturity. School and Institutional Trust Lands Administration has been contacted and they had closed out their case file for this project. As the three year prerequisite for seeding success has been met the Division will now close our file for this project.

You are hereby released from any further mining or reclamation responsibilities at this site. You will not have to pay the \$100.00 permit fee that was recently sent to you. If you plan to conduct any new mining activities in this area, you will need to submit the appropriate notice of intention, pay the Division permit fee, and receive written approval, prior to commencing any such activities.

If you have any questions or concerns regarding this action, please contact me at (801) 538-5382. Thank you for your time and consideration in completing the required reclamation on this project.

Sincerely,

A handwritten signature in cursive script that reads "Doug Jensen".

Doug Jensen
Reclamation Specialist
